A new photo gallery for Around the World in 80 stitches has been created and we already have lots of examples of all the parts so far. Please keep sending them as you progress, and of course you don't have to be up to the current part to have your photo included. When you send a photo for the first time could you please also supply the following information:

1. Your **first name and family name** (your family name is confidential and not for publication. It is just to help us to avoid confusing people with the same first name - we have 59 Collections for example!)
2. **Where you live** - the town, state / country / province etc. (as applicable), and the country.
3. **The materials** that you have used.

For update photos there is no need to send any supplementary information unless something has changed or you have noticed that there is an error.

Important: Under normal circumstances you should receive your chart within about 30 seconds. If you have not received it within a few minutes please return to Newsletter Corner again, and providing Paypal has processed the transaction correctly you will find that the Newsletter Corner page has changed, and you will now see links for downloading all the parts. For this to work correctly it is very important that the e-mail address you use for logging in to Newsletter Corner is the same as your Paypal e-mail address. If this is different, or you find that when you login again to Newsletter Corner you still see the invitation to join the SAL, please get in touch with us so that we can do the necessary to make it work for you.

A list of the materials required which also incorporates a handy thread organiser can be downloaded from the appropriate link below.

Opinion poll on Thread Kits

Our thanks to everyone who voted in the poll. The vast majority said that they would prefer to resource the materials themselves, so in the circumstances we have decided that it is not viable to provide kits.

New Facebook Group

Our new Facebook groups are going really well, and we already have nearly 900 members on the English group, and over 300 members on the French group.

There is now also a new Russian group [Вязание на Папилон Creations](#) for our Russian speaking friends on which there are now about 90 members. Здесь можно будет узнать последние новости о дизайне, совместных отшивках и еще много интересного!

These groups are not restricted to people on our mailing list, so if you have other stitching friends, let them know about it too. To get the group going, I have put a few little freebies in the files section, so why not pop along there and check them out.
